#### SECTION 4: FIRST AID MEASURES

4.1 DESCRIPTION OF FIRST AID MEASURES:

Symptoms may occur after exposure, so that in case of direct exposure to the product, when in doubt, or when symptoms persist, seek medical attention. Never give anything by mouth to an unconscious person. Lifeguards should pay attention to self-protection and use the recommended protective equipment if there is a possibility of exposure. Wear protective gloves when administering first aid.

	Route of exposure	Symptoms and effects, acute and delayed	Description of first-aid measures				
	Inhalation:		Remove the patient out of the contaminated area into fresh air.If breathing is irregular or stops, administer artificial respiration.If the person is unconscious, place appropriate recovery position.Keep the patient warm a at rest until medical attention arrives.				
	Skin:	Prolonged contact may cause skin dryness.	Remove immediately contaminated clothing.Wash thoroughly the affected area with plenty of cold or lukewarm water and neutral soap, or use a suitable sk cleanser.Do not use solvents or thinners.				
	Eyes:	Contact with the eyes produces redness, pain and serious burns.	Remove contact lenses.Rinse eyes copiously by irrigation with plenty of clean, fresh water for at least 1 minutes, holding the eyelids apart, until the irritation is reduced.If irritation persists, consult a physician.				
	Ingestion:	If swallowed, may cause irritation of the throat, abdominal pain, drowsiness, nausea, vomiting and diarrhoea.	If swallowed, seek medical advice immediately and sh container or label. Do not induce vomiting, due to the of aspiration.Keep the patient at rest.				
		PTOMS AND EFFECTS, BOTH ACUTE AND DE	ELAYED:				
	The main symptoms and effects are indicated in sections 4.1 and 11.1						
		IEDIATE MEDICAL ATTENTION AND SPECIAL	<u>TREATMENT NEEDED:</u>				
	Notes to physician:						
		l at the control of symptoms and the clinical condition	of the patient.				
	Antidotes and contraindica	tions:					
	Specific antidote not known.						
ΓΙΟΙ	N 5: FIREFIGHTING MEASURI	ES					
	EXTINGUISHING MEDIA:						
	Extinguishing powder or CO2	) 					
	SPECIAL HAZARDS ARIS	ING FROM THE SUBSTANCE OR MIXTURE:					
		on or thermal decomposition, hazardous products ma ion or decomposition products may be a hazard to he					
	ADVICE FOR FIREFIGHT	ERS:					
	Special protective equipme	ent:					
	protective glasses or face ma		ppropriate independent breathing apparatus, gloves, s not available or is not being used, combat fire from a evel of protection for chemical incidents.				
	Other recommendations:						
	Other recommendations: Cool with water the tanks, cisterns or containers close to sources of heat or fire.Bear in mind the direction of the wind.Do not allow fire- fighting residue to enter drains, sewers or water courses.

SECTION	6: ACCIDENTAL RELEASE MEASURES		
6.1	PERSONAL PRECAUTIONS, PROTECTIVE E	QUIPMENT AND EMERGENCY PROCEDURES:	
	Eliminate possible sources of ignition and when ap breathing vapours.Keep people without protection i	propriate, ventilate the area. Do not smoke.Avoid direct o	contact with this product.Avoid
6.2		ean water and soil.In the case of large scale spills or wh	ien the product contaminates
6.3	lakes, rivers or sewages, inform the appropriate au METHODS AND MATERIAL FOR CONTAINM		
	Contain and mop up spills with non-combustible ab in a closed container.	sorbent materials (earth, sand, vermiculite, diatomaceou	is earth, etc). Keep the remains
6.4	REFERENCE TO OTHER SECTIONS: For contact information in case of emergency, see s	acation 1	
	For information on safe handling, see section 7. For exposure controls and personal protection mea For waste disposal, follow the recommendations in	sures, see section 8.	
SECTION	7: HANDLING AND STORAGE		
7.1	PRECAUTIONS FOR SAFE HANDLING:		
	Comply with the existing legislation on health and s	afety at work.	
	- General recommendations:	,	
	Use in areas free from sources of ignition and away	/ from heat or electrical sources.Do not smoke.Avoid any	y type of leakage or
	escape.Keep the container tightly closed. - Recommendations for the prevention of fire a	nd explosion risks:	
		ors to a considerable distance, can form explosive mixtu	res with air and are able to reach
		ie to its flammability, this material should only be used in ided and away from other heat or electrical sources.Swit e used.	
	Flashpoint	38* °C	CLP 2.6.4.3.
	Autoignition temperature:	Not applicable (do not sustain combus	tion).
	- Recommendations for the prevention of toxico	ological risks. Idling, wash hands with soap and water. For exposure of	ontrols and personal protection
	measures, see section 8.	anny, waan handa with soup and water. For exposure of	
	- Recommendations for the prevention of envir	onmental contamination:	
		the case of accidental spillage, follow the instructions in	dicated in section 6.
7.2	CONDITIONS FOR SAFE STORAGE, INCLUE		
		of reach of children. This product should be stored isola avoid direct contact with sunlight. In order to avoid leak position. For more information, see section 10.	
	- Class of store:		
	According to current legislation.		
	- <u>Maximum storage period:</u> 12 Months		
	- Temperature interval:		
	min:5 °C, max:40 °C (recommended).		
	- Incompatible materials:		
	Keep away from oxidixing agents, from strongly alk	aline and strongly acid materials.	
	- Type of packaging:		
	According to current legislation. - Limit guantity (Seveso III): Directive 2012/18/	EUI	
	Not applicable (product for non industrial use).	<u></u>	
7.3	SPECIFIC END USE(S):		
		ons apart from that already indicated are not available.

Date of printing: 22/12/2022

## CORROSION / IRRITATION / SENSITISATION :

Danger class	Target organs	Cat.	Main effects, acute and/or delayed	Criteria
<ul> <li>Respiratory corrosion/irritation: Not classified</li> </ul>	-	-	irritant by inhalation (based on available data, the classification criteria are not met).	GHS/CLP 1.2.6. 3.8.3.4.
- Skin corrosion/irritation: Not classified	-	_		GHS/CLP 3.2.3.3.
- Serious eye damage/irritation:	Eyes	Cat.1	, , ,	GHS/CLP 3.3.3.3.
- Respiratory sensitisation: Not classified	-	-	1 5 7	GHS/CLP 3.4.3.3.
- Skin sensitisation: Not classified	-	-	Not classified as a product sensitising by skin contact (based on available data, the classification criteria are not met).	GHS/CLP 3.4.3.3.

GHS/CLP 3.2.3.3: Classification of the mixture when data are available for all components or only for some components. GHS/CLP 3.3.3.3: Classification of the mixture when data are available for all components or only for some components. GHS/CLP 3.4.3.3: Classification of the mixture when data are available for all components or only for some components. GHS/CLP 3.8.3.4: Classification of the mixture when data are available for all components or only for some components.

#### - ASPIRATION HAZARD:

Danger class	Target organs	Cat.	Main effects, acute and/or delayed	Criteria
- Aspiration hazard: Not classified	-		1 3	GHS/CLP 3.10.3.3.

GHS/CLP 3.10.3.3: Classification of the mixture when data are available for all components or only for some components.

#### SPECIFIC TARGET ORGANS TOXICITY (STOT): Single exposure (SE) and/or Repeated exposure (RE):

Effects	SE/RE	Target organs	Cat.	Main effects, acute and/or delayed	Criteria
<ul> <li>Neurological effects:</li> </ul>	se 🜔	CNS			GHS/CLP 3.8.3.4.

GHS/CLP 3.8.3.4: Classification of the mixture when data are available for all components or only for some components.

#### **CMR EFFECTS:**

- Carcinogenic effects:

It is not considered as a carcinogenic product.

#### - Genotoxicity:

It is not considered as a mutagenic product.

- Toxicity for reproduction:

Does not harm fertility.Does not harm the unborn child.

- Effects via lactation:

Not classified as a hazardous product for children breast-fed.

# DELAYED AND IMMEDIATE EFFECTS AS WELL AS CHRONIC EFFECTS FROM SHORT AND LONG-TERM EXPOSURE:

Routes of exposure

May be absorbed by inhalation of vapour, through the skin and by ingestion.

#### - Short-term exposure:

Exposure to solvent vapour concentrations in excess of the stated occupational exposure limit, may result in adverse health effects, such as mucous membrane and respiratory system irritation and adverse effects on kidneys, liver and central nervous system.Liquid splashes in the eyes may cause irritation and reversible damage.If swallowed, may cause irritation of the throat; other effects may be the same as described in the exposure to vapours. Causes skin irritation. Causes serious eye damage. May cause respiratory irritation. May cause drowsiness or dizziness.

#### - Long-term or repeated exposure:

Repeated or prolonged contact may cause removal of natural fat from the skin, resulting in non-allergic contact dermatitis and absorption through the skin.

### **INTERACTIVE EFFECTS:**

Not available.

INFORMATION ABOUT TOXICOCINETICS, METABOLISM AND DISTRIBUTION: - Dermal absorption:
