Inhalation: Not classified	ATE > 20000 mg/m3	-	Not classified as a product with acute toxicity if inhaled (based on available data, the classification criteria are not met).	GHS/Cl 3.1.3.6.
Skin: Not classified	ATE > 5000 mg/kg bw	-	Not classified as a product with acute toxicity in contact with skin (based on available data, the classification criteria are not met).	
Eyes: Not classified	Not available.	-	Not classified as a product with acute toxicity by eye contact (lack of data).	GHS/C 1.2.5.
Ingestion: Not classified	ATE > 5000 mg/kg bw	-	Not classified as a product with acute toxicity if swallowed (based on available data, the classification criteria are not met).	GHS/C 3.1.3.6.

GHS/CLP 3.1.3.6: Classification of mixtures based on ingredients of the mixture (additivity formula).

## CORROSION / IRRITATION / SENSITISATION :

Danger class	Target organs	Cat.	Main effects, acute and/or delayed	Criteria
- Respiratory corrosion/irritation: Not classified	-	-	Not classified as a product corrosive or irritant by inhalation (based on available data the classification criteria are not met).	GHS/CLP ,1.2.6. 3.8.3.4.
- Skin corrosion/irritation: Not classified	-	-	Not classified as a product corrosive or irritant in contact with skin (based on available data, the classification criteria are not met).	GHS/CLP 3.2.3.3.
- Serious eye damage/irritation: Not classified	-	-	Not classified as a product corrosive or irritant in contact with eyes (based on available data, the classification criteria are not met).	GHS/CLP 3.3.3.3.
<ul> <li>Respiratory sensitisation: Not classified</li> </ul>	-	-	Not classified as a product sensitising by inhalation (based on available data, the classification criteria are not met).	GHS/CLP 3.4.3.3.
- Skin sensitisation: Not classified	-	-	Not classified as a product sensitising by skin contact (based on available data, the classification criteria are not met).	GHS/CLP 3.4.3.3.

GHS/CLP 3.2.3.3: Classification of the mixture when data are available for all components or only for some components. GHS/CLP 3.3.3.3: Classification of the mixture when data are available for all components or only for some components. GHS/CLP 3.4.3.3: Classification of the mixture when data are available for all components or only for some components. GHS/CLP 3.8.3.4: Classification of the mixture when data are available for all components or only for some components. GHS/CLP 3.8.3.4: Classification of the mixture when data are available for all components or only for some components.

## - ASPIRATION HAZARD:

Danger class	Target organs	Cat.	Main effects, acute and/or delayed	Criteria
- Aspiration hazard: Not classified	-			GHS/CLP 3.10.3.3.

GHS/CLP 3.10.3.3: Classification of the mixture when data are available for all components or only for some components.

SPECIFIC TARGET ORGANS TOXICITY (STOT): Single exposure (SE) and/or Repeated exposure (RE): Not classified as a dangerous product for target organs.

GHS/CLP 3.8.3.4: Classification of the mixture when data are available for all components or only for some components.

**CMR EFFECTS:** 

- Carcinogenic effects:

It is not considered as a carcinogenic product.

- Genotoxicity:

It is not considered as a mutagenic product.

Toxicity for reproduction:

Does not harm fertility.Does not harm the unborn child.

- Effects via lactation:

Not classified as a hazardous product for children breast-fed.

DELAYED AND IMMEDIATE EFFECTS AS WELL AS CHRONIC EFFECTS FROM SHORT AND LONG-TERM EXPOSURE: Routes of exposure Not available. - Short-term exposure: Not available.

CTION	N 13: DISPOSAL CONSIDE	ERATIONS							
3.1	WASTE TREATMENT	METHODS:Directive 20	008/98/EC~Regulation (EU) no	<u>. 1357/2014:</u>					
	Take all necessary measures to prevent the production of waste whenever possible. Analyse possible methods for revaluation or recycling								
	Do not discharge into drains or the environment, dispose at an authorised waste collection point. Waste should be handled and disposed i accordance with current local and national regulations. For exposure controls and personal protection measures, see section 8.								
	LER code	Description			Type of waste				
					Non-hazardous				
	Disposal of empty cont	ainers:Directive 94/62/E	C~2015/720/EU, Decision 200	0/532/EC~2014/955/EU	<u>l:</u>				
	Emptied containers and packaging should be disposed in accordance with currently local and national regulations. The classification of packaging as hazardous waste will depend on the degree of empting of the same, being the holder of the residue responsible for their classification, in accordance with Chapter 15 01 of Decision 2000/532/EC, and forwarding to the appropriate final destination. With contaminated containers and packaging, adopt the same measures as for the product in itself.								
	Procedures for neutralising or destroying the product:								
	Authorised landfill in accordance with local regulations.

H302 Harmful if swallowed. H310 Fatal in contact with skin. H311 Toxic in contact with skin. H314 Causes severe skin burns and eye damage. H315 Causes skin irritation. H317 May cause an allergic skin reaction. H318 Causes serious eye damage. H330 Fatal if inhaled. H400 Very toxic to aquatic life. H410 Very toxic to aquatic life with long lasting effects. EUH071 Corrosive to the respiratory tract. H360D May damage the unborn child. H372 Causes damage to organs through prolonged or repeated exposure. Notes related to the identification, classification and labelling of the substances or mixtures: Note B : Some substances (acids, bases, etc.) are placed on the market in aqueous solutions at various concentrations and, therefore, these solutions require different classification and labelling since the hazards vary at different concentrations. In Part 3 entries with Note B have a general designation of the following type: 'nitric acid ... %'. In this case the supplier must state the percentage concentration of the solution on the label. Unless otherwise stated, it is assumed that the percentage concentration is calculated on a weight/weight basis. EVALUATION OF THE INFORMATION ON THE DANGER OF MIXTURES: See sections 9.1, 11.1 and 12.1. ADVICES ON ANY TRAINING APPROPRIATE FOR WORKERS: It is recommended for all staff that will handle this product to carry out a basic training in occupational risk and prevention, in order to provide understanding and interpretation of Safety Data Sheets and labelling of products as well. MAIN LITERATURE REFERENCES AND SOURCES FOR DATA: · European Chemicals Agency: ECHA, http://echa.europa.eu/ Access to European Union Law, http://eur-lex.europa.eu/ · Threshold Limit Values, (AGCIH, 2021). · European agreement on the international carriage of dangerous goods by road, (ADR 2023). · International Maritime Dangerous Goods Code IMDG including Amendment 41-22 (IMO, 2022). ABBREVIATIONS AND ACRONYMS: List of abbreviations and acronyms that can be used (but not necessarily used) in this Safety Data Sheet: · REACH: Regulation concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals. · GHS: Globally Harmonized System of Classification and Labelling of Chemicals of the United Nations. · CLP: European regularion on Classificatin, Labelling and Packaging of substances and chemical mixtures. · EINECS: European Inventory of Existing Commercial Chemical Substances. · ELINCS: European List of Notified Chemical Substances · CAS: Chemical Abstracts Service (Division of the American Chemical Society). · UVCB: Substances of Unknown or Variable composition, complex reaction products or biological materials. SVHC: Substances of Very High Concern. · PBT: Persistent, bioaccumulable and toxic substances. · vPvB: Very persistent and very bioaccumulable substances. · DNEL: Derived No-Effect Level (REACH). · PNEC: Predicted No-Effect Concentration (REACH). · LC50: Lethal concentration, 50 percent. · LD50: Lethal dose, 50 percent. · UN: United Nations Organisation. · ADR: European agreement concerning the international carriage of dangeous goods by road. · RID: Regulations concerning the international transport of dangeous goods by rail. · IMDG: International Maritime code for Dangerous Goods. · IATA: International Air Transport Association. · ICAO: International Civil Aviation Organization. SAFETY DATA SHEET REGULATIONS: Safety Data Sheet in accordance with Article 31 of Regulation (EC) No. 1907/2006 (REACH) and Annex of Regulation (EU) No. 2020/878. **REVISION:** HISTORIC: 12/11/2024 Version: 1 The information of this Safety Data Sheet, is based on the present state of knowledge and on current UE and national laws, as the users" working conditionsare beyond our knowledge and control. The product is not to be used for other purposes than those specified, without first obtaining written handling instruction. It is always the responsibility of the user to take all necessary steps in order to fulfil the demand laid down in the local rules and

as a guarantee of the product"s properties.

legislation. The information in this Safety Data Sheet is meant as a description of the safety requirements of the product and it is not to be considered

Safety Data Sheet (SDS) generated with the 6.0.0.182 version of the JMTCHEM software (www.jmtchemsolutions.com).
