4.1	DN 4: FIRST AID MEASURES		
	Symptoms may occurs seek medical atten	cur after exposure, so that in case of direct exposure to tion.Never give anything by mouth to an unconscious p	the product, when in doubt, or when symptoms persist, erson.Lifeguards should pay attention to self-protection exposure.Wear protective gloves when administering first
	Route of exposure	Symptoms and effects, acute and delayed	Description of first-aid measures
	Inhalation:	It is not expected that symptoms will occur under normal conditions of use.	Remove the patient out of the contaminated area into the fresh air. If breathing is irregular or stops, administer artificial respiration. If the person is unconscious, place in appropriate recovery position. Keep the patient warm and at rest until medical attention arrives.
	Skin:	Skin contact causes redness.	Remove contaminated clothing.Wash thoroughly the affected area with plenty of cold or lukewarm water and neutral soap, or use a suitable skin cleanser.
	Eyes:	Contact with the eyes may produce slight redness.	Remove contact lenses.Rinse eyes copiously by irrigation with plenty of clean, fresh water, holding the eyelids apart.If irritation persists, consult a physician.
	Ingestion:	If swallowed, may cause gastrointestinal disturbances.	If swallowed, seek medical advice immediately and show container or label. Do not induce vomiting, due to the risk of aspiration.Keep the patient at rest.
4.2		MPTOMS AND EFFECTS, BOTH ACUTE AND DE	ELAYED:
		ffects are indicated in sections 4.1 and 11.1

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION CONTROL PARAMETERS 8.1 If a product contains ingredients with exposure limits, may be necessary a personnel monitoring, work place or biological, to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to EN689, EN14042 and EN482 standard concerning methods for assessing the exposure by inhalation to chemical agents, and exposure to chemical and biological agents. Reference should be also made to national guidance documents for methods for the determination of dangerous substances. - OCCUPATIONAL EXPOSURE LIMIT VALUES (WEL) Not established - BIOLOGICAL LIMIT VALUES: Not established - DERIVED NO-EFFECT LEVEL (DNEL): Derived no-effect level (DNEL) is a level of exposure that is considered safe, derived from toxicity data according to specific guidances included in REACH. DNEL values may differ from a occupational exposure limit (OEL) for the same chemical. OEL values may come recommended by a particular company, a government regulatory agency or an organization of experts. Although considered protective of health, the OEL values are derived by a process different of REACH. - DERIVED NO-EFFECT LEVEL, WORKERS:-DNEL Inhalation mg/m3 DNEL Cutaneous DNEL Oral mg/kg bw/d Systemic effects, acute and chronic: 1,2-benzisothiazol-3(2H)-one s/r (a) 6,81 (c) s/r (a) 0,966 (c) - (a) - (c) - (a) - (c) - (a) - (c) - (a) - (c) Reaction mass of 5-chloro-2-methyl-2H-isothiazolin-3one [EC 247-500-7] and 2-methyl-2H-isothiazol-3-one [EC 220-239-6] (3:1) - (a) - (c) - (a) - (c) - (a) - (c) 2-octyl-2H-isothiazol-3-one - DERIVED NO-EFFECT LEVEL, WORKERS:- Local **DNEL** Inhalation DNEL Eyes **DNEL** Cutaneous mg/cm2 effects, acute and chronic: m/r (a) 1,2-benzisothiazol-3(2H)-one s/r (a) s/r (c) a/r (a) a/r (c) - (c) Reaction mass of 5-chloro-2-methyl-2H-isothiazolin-3-- (a) (c) - (a) (c) - (a) - (c) one [EC 247-500-7] and 2-methyl-2H-isothiazol-3-one [EC 220-239-6] (3:1) - (a) - (a) - (a) 2-octyl-2H-isothiazol-3-one - (c) - (c) - (c) DNEL Eyes - DERIVED NO-EFFECT LEVEL, GENERAL DNEL Inhalation DNEL Cutaneous ma/ka bw/c POPULATION:- Systemic effects, acute and chronic: s/r (a) 2 (a) 1,2-benzisothiazol-3(2H)-one s/r (a) 1.2 (c) 0.345 (c) s/r (C) - (a) - (c) Reaction mass of 5-chloro-2-methyl-2H-isothiazolin-3-(c) - (a) - (c) - (a) one [EC 247-500-7] and 2-methyl-2H-isothiazol-3-one [EC 220-239-6] (3:1) 2-octvl-2H-isothiazol-3-one - (a) (c) - (a) (c) - (a) - (c) DNEL Inhalation mg/m3 DNEL Cutaneous mg/cm2 - LOCAL EFFECTS, ACUTE AND CHRONIC:- Local DNEL Eyes mg/cm2 effects, acute and chronic: s/r (a) s/r (C) a/r (a) a/r (c) m/r (a) - (c) 1,2-benzisothiazol-3(2H)-one Reaction mass of 5-chloro-2-methyl-2H-isothiazolin-3-- (a) (c) - (a) - (c) - (a) - (c) one [EC 247-500-7] and 2-methyl-2H-isothiazol-3-one [EC 220-239-6] (3:1) - (c) - (a) - (c) - (a) - (c) - (a) 2-octyl-2H-isothiazol-3-one (a) - Acute, short-term exposure, (c) - Chronic, long-term or repeated exposure (-) - DNEL not available (without data of registration REACH). s/r - DNEL not derived (not identified hazard). m/r - DNEL not derived (medium hazard). a/r - DNEL not derived (high hazard). Revision: 26/01/2023

Previous revision: 20/12/2022

Skin: Not classified	ATE > 5000 mg/kg bw	-	Not classified as a product with acute toxicity GHS/CLF in contact with skin (based on available data, 3.1.3.6. the classification criteria are not met).
Eyes: Not classified	Not available.	-	Not classified as a product with acute toxicity GHS/CLF by eye contact (lack of data). 1.2.5.
Ingestion: Not classified	ATE > 5000 mg/kg bw	-	Not classified as a product with acute toxicity GHS/CLF if swallowed (based on available data, the classification criteria are not met).

GHS/CLP 3.1.3.6: Classification of mixtures based on ingredients of the mixture (additivity formula).

CORROSION / IRRITATION / SENSITISATION :

Danger class	Target organs	Cat.	Main effects, acute and/or delayed	Criteria
- Respiratory corrosion/irritation: Not classified	-	-	Not classified as a product corrosive or irritant by inhalation (based on available data the classification criteria are not met).	GHS/CLP ,1.2.6. 3.8.3.4.
- Skin corrosion/irritation: Not classified	-	-	Not classified as a product corrosive or irritant in contact with skin (based on available data, the classification criteria are not met).	GHS/CLP 3.2.3.3.
- Serious eye damage/irritation: Not classified	-	-	Not classified as a product corrosive or irritant in contact with eyes (based on available data, the classification criteria are not met).	GHS/CLP 3.3.3.3.
- Respiratory sensitisation: Not classified	-	-	Not classified as a product sensitising by inhalation (based on available data, the classification criteria are not met).	GHS/CLP 3.4.3.3.
- Skin sensitisation: Not classified	-	-	Not classified as a product sensitising by skir contact (based on available data, the classification criteria are not met).	GHS/CLP 3.4.3.3.

GHS/CLP 3.2.3.3: Classification of the mixture when data are available for all components or only for some components. GHS/CLP 3.3.3.3: Classification of the mixture when data are available for all components or only for some components. GHS/CLP 3.4.3.3: Classification of the mixture when data are available for all components or only for some components. GHS/CLP 3.8.3.4: Classification of the mixture when data are available for all components or only for some components.

- ASPIRATION HAZARD:

Danger class	Target organs	Cat.	Main effects, acute and/or delayed	Criteria
- Aspiration hazard:	-	-	Not classified as a product hazardous by	GHS/CLP
Not classified			aspiration (based on available data, the classification criteria are not met).	3.10.3.3.

GHS/CLP 3.10.3.3: Classification of the mixture when data are available for all components or only for some components.

SPECIFIC TARGET ORGANS TOXICITY (STOT): Single exposure (SE) and/or Repeated exposure (RE):

Not classified as a dangerous product for target organs.

GHS/CLP 3.8.3.4: Classification of the mixture when data are available for all components or only for some components.

CMR EFFECTS:

- Carcinogenic effects:

It is not considered as a carcinogenic product.

- Genotoxicity:

It is not considered as a mutagenic product.

- Toxicity for reproduction:

Does not harm fertility.Does not harm the unborn child.

- Effects via lactation:

Not classified as a hazardous product for children breast-fed.

DELAYED AND IMMEDIATE EFFECTS AS WELL AS CHRONIC EFFECTS FROM SHORT AND LONG-TERM EXPOSURE: Routes of exposure Not available. - Short-term exposure: # Causes burns to the skin or eyes by direct contact or to the digestive tract if swallowed. The mists of fine particles are skin and respiratory tract irritants.Causes serious eye damage. Causes skin irritation. Causes serious eye damage. May cause drowsiness or dizziness. - Long-term or repeated exposure:

Not available.

(Language:EN) isava **IMPERMISAL LISO SATINADO (CE)** Code: 4011 Version: 15 Revision: 26/01/2023 Previous revision: 20/12/2022 Date of printing: 26/01/2023 SECTION 16 : OTHER INFORMATION TEXT OF THE PHRASES AND NOTES REFERENCED IN SECTIONS 2 AND/OR 3: 16.1 Hazard statements according the Regulation (EU) No. 1272/2008~2021/849 (CLP), Annex III: H301 Toxic if swallowed. H302 Harmful if swallowed. H310 Fatal in contact with skin. H311 Toxic in contact with skin. H314 Causes severe skin burns and eye damage. H315 Causes skin irritation. H317 May cause an allergic skin reaction. H318 Causes serious eye damage. H330 Fatal if inhaled. H400 Very toxic to aquatic life. H410 Very toxic to aquatic life with long lasting effects. H412 Harmful to aquatic life with long lasting effects. EUH071 Corrosive to the respiratory tract. Notes related to the identification, classification and labelling of the substances or mixtures: Note B : Some substances (acids, bases, etc.) are placed on the market in aqueous solutions at various concentrations and, therefore, these solutions require different classification and labelling since the hazards vary at different concentrations. In Part 3 entries with Note B have a general designation of the following type: 'nitric acid ... %'. In this case the supplier must state the percentage concentration of the solution on the label. Unless otherwise stated, it is assumed that the percentage concentration is calculated on a weight/weight basis. EVALUATION OF THE INFORMATION ON THE DANGER OF MIXTURES: See sections 9.1, 11.1 and 12.1. OBSERVATIONS Non-skin sensitizing based on the results of similar mixtures tested in accordance with the bridging principles described in art.9, par.4, Reg.CLP;OECD 429LLNA(mouse)-non-skin sensitizing-S4565;S4568 ;S5146;S5147 ADVICES ON ANY TRAINING APPROPRIATE FOR WORKERS: It is recommended for all staff that will handle this product to carry out a basic training in occupational risk and prevention, in order to provide understanding and interpretation of Safety Data Sheets and labelling of products as well.
