SECTION 4: FIRST AID MEASURES 4.1 DESCRIPTION OF FIRST AID MEASURES:

Symptoms may occur after exposure, so that in case of direct exposure to the product, when in doubt, or when symptoms persist, seek medical attention.Never give anything by mouth to an unconscious person.Lifeguards should pay attention to self-protection and use the recommended protective equipment if there is a possibility of exposure.Wear protective gloves when administering first aid.

| | aid. | | | | | | |
|--------|--|---|---|--|--|--|--|
| | Route of exposure | Symptoms and effects, acute and delayed | Description of first-aid measures | | | | |
| | Inhalation: | Inhalation produces irritation to mucus, coughing and breathlessness. | This product is not volatile.As the product is solid, hazard is rather low.Should there be any symptoms, transfer the person affected to the open air. | | | | |
| | Skin: | Skin contact causes redness and pain. | Remove contaminated clothing.Wash thoroughly the affected area with plenty of cold or lukewarm water and neutral soap, or use a suitable skin cleanser. | | | | |
| | Eyes: | Contact with the eyes produces redness, pain and serious burns. | Remove contact lenses.Rinse eyes copiously by irrigation with plenty of clean, fresh water for at least 15 minutes, holding the eyelids apart, until the irritation is reduced.Call a physician immediately. | | | | |
| | Ingestion: | If swallowed, may cause irritation of the mouth, throat and oesophagus. | If swallowed, seek medical advice immediately and show container or label. Do not induce vomiting.Keep the patient at rest. | | | | |
| 4.2 | MOST IMPORTANT SYM | PTOMS AND EFFECTS, BOTH ACUTE AND D | ELAYED: | | | | |
| | | ects are indicated in sections 4.1 and 11.1 | | | | | |
| 4.3 | INDICATION OF ANY IMM | IEDIATE MEDICAL ATTENTION AND SPECIAL | _ TREATMENT NEEDED: | | | | |
| | Notes to physician: | | | | | | |
| | Treatment should be directed at the control of symptoms and the clinical condition of the patient. | | | | | | |
| | Antidotes and contraindica | ations: | | | | | |
| | Specific antidote not known. | | | | | | |

|--------|--|
| ECTIO | N 6: ACCIDENTAL RELEASE MEASURES |
| 6.1 | PERSONAL PRECAUTIONS, PROTECTIVE EQUIPMENT AND EMERGENCY PROCEDURES: |
| 0.1 | Avoid direct contact with this product. |
| 6.2 | ENVIRONMENTAL PRECAUTIONS: |
| 0.2 | Avoid contamination of drains, surface or subterranean water and soil. In the case of large scale spills or when the product contaminates |
| | lakes, rivers or sewages, inform the appropriate authorities in accordance with local regulations. |
| 6.3 | METHODS AND MATERIAL FOR CONTAINMENT AND CLEANING UP: |
|).5 | Sweep spilt product. Keep the remains in a closed container. |
| | REFERENCE TO OTHER SECTIONS: |
| 6.4 | |
| | For contact information in case of emergency, see section 1. For information on safe handling, see section 7. |
| | For exposure controls and personal protection measures, see section 8. |
| | For waste disposal, follow the recommendations in section 13. |
| CTIO | N 7: HANDLING AND STORAGE |
| | PRECAUTIONS FOR SAFE HANDLING: |
| .1 | |
| | Comply with the existing legislation on health and safety at work. - General recommendations: |
| | |
| | Avoid any type of leakage or escape.Keep the container tightly closed. |
| | - Recommendations for the prevention of fire and explosion risks: |
| | The product is not liable to ignite, deflagrate or explode, and does not sustain the combustion reaction by oxygen from air in the |
| | environment in which it is, so it is not included in the scope of Directive 2014/34/EU concerning equipment and protective systems intend for use in potentially explosive atmospheres. |
| | |
| | - Recommendations for the prevention of toxicological risks: |
| | Do not eat, drink or smoke while handling. After handling, wash hands with soap and water. For exposure controls and personal protection |
| | measures, see section 8. |
| | - Recommendations for the prevention of environmental contamination: |
| | It is not considered a danger to the environment. In the case of accidental spillage, follow the instructions indicated in section 6. |
| .2 | CONDITIONS FOR SAFE STORAGE, INCLUDING ANY INCOMPATIBILITIES: |
| | Forbid the entry to unauthorized persons. Keep out of reach of children. Keep away from sources of heat. If possible, avoid direct contact |
| | with sunlight. Avoid extreme humidity conditions. In order to avoid leakages, the containers, after use, should be closed carefully and place |
| | in a vertical position. For more information, see section 10. |
| | - Class of store: |
| | According to current legislation. |
| | - Maximum storage period: |
| | 12 Months |
| | - Temperature interval: |
| | min:5 °C, max:40 °C (recommended). |
| | - Incompatible materials: |
| | Keep away from acids. |
| | - Type of packaging: |
| | According to current legislation. |
| | - Limit guantity (Seveso III): Directive 2012/18/EU: |
| | Not applicable (product for non industrial use). |
| .3 | SPECIFIC END USE(S): |
| .0 | For the use of this product particular recommendations apart from that already indicated are not available. |

| | N 10: STABILITY AND REACT | | | | | | | |
|------|---|---|--|--|--|--|--|--|
| 40.4 | | | | | | | | |
| 10.1 | REACTIVITY: | | | | | | | |
| | - Corrosivity to metals: | | | | | | | |
| | It is not corrosive to metals. | | | | | | | |
| | - Pyrophorical properties: | | | | | | | |
| | It is not pyrophoric. | | | | | | | |
| 10.2 | CHEMICAL STABILITY: | | | | | | | |
| | | storage and handling conditions. | | | | | | |
| 0.3 | POSSIBILITY OF HAZAR | | | | | | | |
| | Possible dangerous reaction | | | | | | | |
| 10.4 | CONDITIONS TO AVOID: | - - | | | | | | |
| | - Heat: | | | | | | | |
| | Keep away from sources of | heat. | | | | | | |
| | - Light: | | | | | | | |
| | If possible, avoid direct conta | act with sunlight. | | | | | | |
| | <u>- Air:</u> | | | | | | | |
| | The product is not affected b | by exposure to air, but should not be lef | ft the containers | open. | | | | |
| | - Humidity: | | | | | | | |
| | Avoid extreme humidity cond | ditions. | | | | | | |
| | - Pressure: | | | | | | | |
| | Not relevant. | | | | | | | |
| | - Shock: | | | | | | | |
| | | to shocks, but as a recommendation of | f a general natu | re should be avoided bumps and rough handlin | a to av | | | |
| | dents and breakage of packa | aging, especially when the product is h | nandled in large | quantities, and during loading and download o | peratio | | | |
| 0.5 | INCOMPATIBLE MATERI | | | | | | | |
| | Keep away from acids. | | | | | | | |
| 0.6 | HAZARDOUS DECOMPC | SITION PRODUCTS: | | | | | | |
| 0.0 | | decomposition, hazardous products ma | av be produced. | carbon monoxide | | | | |
| OTIO | N 11: TOXICOLOGICAL INFO | | ay be produced. | | | | | |

| - Aspiration hazard: Not classified | - | - | | GHS/CLP 3.10.3.3. |

GHS/CLP 3.10.3.3: Classification of the mixture when data are available for all components or only for some components.

SPECIFIC TARGET ORGANS TOXICITY (STOT): Single exposure (SE) and/or Repeated exposure (RE):

| Effects | SE/RE | Target organs | Cat. | Main effects, acute and/or delayed | Criteria |
|------------------------|--------|-------------------|-------|------------------------------------|--------------------|
| - Respiratory effects: | SE | Respiratory tract | Cat.3 | , i j | GHS/CLP 3.8.3.4 |
| | \sim | | | | 0.0.0 |

GHS/CLP 3.8.3.4: Classification of the mixture when data are available for all components or only for some components.

CMR EFFECTS:

- Carcinogenic effects:

It is not considered as a carcinogenic product.

- Genotoxicity:

It is not considered as a mutagenic product.

- Toxicity for reproduction:

Does not harm fertility.Does not harm the unborn child.

- Effects via lactation:

Not classified as a hazardous product for children breast-fed.

DELAYED AND IMMEDIATE EFFECTS AS WELL AS CHRONIC EFFECTS FROM SHORT AND LONG-TERM EXPOSURE: Routes of exposure

Not available.

- Short-term exposure:

Causes burns to the skin or eyes by direct contact or to the digestive tract if swallowed. The mists of fine particles are skin and respiratory tract irritants. Causes serious eye damage. Causes skin irritation. Causes serious eye damage. May cause drowsiness or dizziness. - Long-term or repeated exposure:

Not available.

INTERACTIVE EFFECTS:

Not available

INFORMATION ABOUT TOXICOCINETICS, METABOLISM AND DISTRIBUTION:

<u>Dermal absorption:</u>
Not available.
<u>Basic toxicokinetics:</u>

Not available.

ADDITIONAL INFORMATION:

Some people may develop eczema by exposure to dust from wet cement, caused either by high pH which causes dermatitis irritation after prolonged contact,

| 13.1 | N 13: DISPOSAL CONSIDERATIONS |
|------|--|
| 10.1 | WASTE TREATMENT METHODS:Directive 2008/98/EC~Regulation (EU) no. 1357/2014: |
| | Take all necessary measures to prevent the production of waste whenever possible. Analyse possible methods for revaluation or recycling Do not discharge into drains or the environment, dispose at an authorised waste collection point. Waste should be handled and disposed in accordance with current local and national regulations. For exposure controls and personal protection measures, see section 8. |
| | Disposal of empty containers:Directive 94/62/EC~2015/720/EU, Decision 2000/532/EC~2014/955/EU: |
| | Emptied containers and packaging should be disposed in accordance with currently local and national regulations. The classification of |
| | packaging as hazardous waste will depend on the degree of empting of the same, being the holder of the residue responsible for their classification, in accordance with Chapter 15 01 of Decision 2000/532/EC, and forwarding to the appropriate final destination. With |
| | contaminated containers and packaging, adopt the same measures as for the product in itself. |
| | Procedures for neutralising or destroying the product: |
| | Authorised landfill in accordance with local regulations. |
| | N 14: TRANSPORT INFORMATION |
| | |
| 4.1 | UN NUMBER OR ID NUMBER: |
| | |
| 4.2 | UN PROPER SHIPPING NAME: |
| | |
| 4.3 | TRANSPORT HAZARD CLASS(ES): |
