CORROSION / IRRITATION / SENSITISATION :

| Danger class | Target organs | Cat. | Main effects, acute and/or delayed | Criteria |
|--------------|---------------|------|------------------------------------|----------|
| | | | | |

RHONAPLAC ADHESIVO Code : 5552

Version: 2

Revision: 05/12/2022

Previous revision: 23/11/2017

Date of printing: 05/12/2022

| - Respiratory corrosion/irritation: Not classified | - Not classified as a product corrosive or GHS/CLP irritant by inhalation (based on available data,1.2.6. the classification criteria are not met). 3.8.3.4. |
|-------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| - Skin corrosion/irritation: Not classified | - Not classified as a product corrosive or GHS/CLP irritant in contact with skin (based on 3.2.3.3. available data, the classification criteria are not met). |
| - Serious eye damage/irritation: Not classified | - Not classified as a product corrosive or GHS/CLP irritant in contact with eyes (based on 3.3.3.3. available data, the classification criteria are not met). |
| - Respiratory sensitisation: Not classified | - Not classified as a product sensitising by GHS/CLP inhalation (based on available data, the 3.4.3.3. classification criteria are not met). |
| - Skin sensitisation: Not classified | - Not classified as a product sensitising by skin GHS/CLP contact (based on available data, the 3.4.3.3. classification criteria are not met). |

GHS/CLP 3.2.3.3: Classification of the mixture when data are available for all components or only for some components. GHS/CLP 3.3.3.3: Classification of the mixture when data are available for all components or only for some components. GHS/CLP 3.4.3.3: Classification of the mixture when data are available for all components or only for some components. GHS/CLP 3.8.3.4: Classification of the mixture when data are available for all components or only for some components. GHS/CLP 3.8.3.4: Classification of the mixture when data are available for all components or only for some components.

- ASPIRATION HAZARD:

| Danger class | Target organs | Cat. | Main effects, acute and/or delayed | Criteria |
|-----------------------------------------------------------|---------------|------|------------------------------------|----------------------|
| Aspiration hazard: Not classified | - | - | Not applicable (solid). | GHS/CLP 3.10.3.3. |
| Not classified | | | | 5.10.5.5. |

GHS/CLP 3.10.3.3: Classification of the mixture when data are available for all components or only for some components.

SPECIFIC TARGET ORGANS TOXICITY (STOT): Single exposure (SE) and/or Repeated exposure (RE):

Not classified as a dangerous product for target organs.

GHS/CLP 3.8.3.4: Classification of the mixture when data are available for all components or only for some components.

CMR EFFECTS:

- Carcinogenic effects:

It is not considered as a carcinogenic product.

- Genotoxicity:

It is not considered as a mutagenic product.

- Toxicity for reproduction:

Does not harm fertility.Does not harm the unborn child.

- Effects via lactation:

Not classified as a hazardous product for children breast-fed.

DELAYED AND IMMEDIATE EFFECTS AS WELL AS CHRONIC EFFECTS FROM SHORT AND LONG-TERM EXPOSURE: Routes of exposure

Not available.

- Short-term exposure:

Causes burns to the skin or eyes by direct contact or to the digestive tract if swallowed. The mists of fine particles are skin and respiratory tract irritants. Causes serious eye damage. Causes skin irritation. Causes serious eye damage. May cause drowsiness or dizziness. - Long-term or repeated exposure:

Not available.

INTERACTIVE EFFECTS:

Not available.

INFORMATION ABOUT TOXICOCINETICS, METABOLISM AND DISTRIBUTION:

 <u>Dermal absorption:</u> Not available.
 <u>Basic toxicokinetics:</u> Not available.

NOL AVAIIADIE.

ADDITIONAL INFORMATION: Not available.

11.2 INFORMATION ON OTHER HAZARDS:

SAFETY DATA SHEET (REACH) In accordance with Regulation (EC) No. 1907/2006 and Regulation (EU) No. 2020/878 Page 9/11 (Language:EN) isava **RHONAPLAC ADHESIVO** Code : 5552 Previous revision: 23/11/2017 Version: 2 Revision: 05/12/2022 Date of printing: 05/12/2022 Endocrine disrupting properties: This product does not contain substances with endocrine disrupting properties identified or under evaluation. Other information: No additional information available. SECTION 12: ECOLOGICAL INFORMATION No experimental ecotoxicological data on the preparation as such is available. The ecotoxicological classification for these mixture has been carried out by using the conventional calculation method of the Regulation (EU) No. 1272/2008~2021/849 (CLP). TOXICITY: 12.1 - Acute toxicity in aquatic environment Not available - No observed effect concentration Not available - Lowest observed effect concentration Not available ASSESSMENT OF AQUATIC TOXICITY: Main hazards to the aquatic environment Criteria Aquatic toxicity Cat. GHS/CLP Acute aquatic toxicity: Not classified as a hazardous product with acute toxicity to aquatic life Not classified (based on available data, the classification criteria are not met). 1.1.3.5.5.3. Not classified as a dangerous product with chronic toxicity to aquatic life Chronic aquatic toxicity: GHS/CLP with long lasting effects (based on available data, the classification criteria 4.1.3.5.5.4. are not met). CLP 4.1.3.5.5.3: Classification of a mixture for acute hazards, based on summation of classified components. CLP 4.1.3.5.5.4: Classification of a mixture for chronic (long term) hazards, based on summation of classified components. PERSISTENCE AND DEGRADABILITY: 12.2 - Biodegradability: Not applicable (inorganic substance). - Hydrolysis: Not available. - Photodegradability:
